

"This is a great program for students to learn how they can easily use energy wisely, and they learn in a fun way!"

Susquenita Middle School Teacher

VALUABLE ENERGY EDUCATION

for schools served by
PPL Electric Utilities

"Great idea! My child loved the program and it will save me money. Thank you!"

West Penn Elementary Parent

PPL Electric Utilities supports teachers in educating students on required energy standards. The Think! Energy Take Action Program will take place at schools in your area **FREE OF CHARGE!**

Teachers and students learn about energy by taking part in a newly designed presentation and by installing energy-efficient products at home with their families.

- 45 to 60 minutes
- Every student receives a *Take Action Kit* that includes energy saving devices such as water devices, weatherization measures and an advanced power strip
- Program correlates to STEEL standards and is supported by PDE
- Easy implementation with online data collection
- Teachers may earn a mini-grant
- Fifth through seventh grades
- October through February
