

# SPECIAL OPPORTUNITY

for schools served by DTE Energy

**DTE Energy** supports teachers in educating students on required energy standards. The **THINK! ENERGY** program will take place at schools in your area **AT NO COST!**

*"Our school LOVED the **THINK! ENERGY** presentation, and the kids were jumping up and down with excitement over bringing home their Take Action Kits. It was nothing short of a home run! "*

- Churchill Elementary teacher

*"This program is an excellent way to help children understand the importance of preserving energy and the Earth. Things, I for one, couldn't get my children to understand before. "*

- Ypsilanti parent

Teachers and students learn about energy by taking part in a presentation at school and installing energy-efficient products at home with their families.

- In-school presentation (50-60 minutes)
- Every student receives a *Take Action Kit* of energy-efficient devices
- Program correlated to GLCEs, NGSS and Common Core Standards
- Easier implementation and new online data option
- Teachers earn a mini-grant of up to \$100, subject to eligibility
- Grades 4-6
- October and November 2016
